

(11) Other Pertinent Information

Chronology

On May 28, 1999, Bell Atlantic Corporation and GTE Corporation filed a Joint Petition before the Virginia State Corporation Commission ("SCC") for Approval of Agreement and Plan of Merger. In that petition, both companies agreed, upon consummation of their merger, **to** expand local calling **areas** to include contiguous exchanges both within and between their respective territories in the Commonwealth of **Virginia**. The SCC, in its "Order Approving Petition" dated November 29, 1999, in Case No. PUC990100, found this commitment to be appropriate and ordered Bell Atlantic - Virginia, Inc. and GTE South Incorporated to file their plan for expansion of their local calling **areas**. These plans were filed with the SCC on **July 21, 2000**, in a Joint Application to expand local calling (Case No. PUC000204). Both companies have been implementing expanded local calling in phases since that joint application was filed. On November 2, 2001 Verizon Virginia (~~f/k/a~~ Bell Atlantic - Virginia, Inc.) and Verizon South (~~f/k/a~~ GTE South Incorporated) filed an Application to implement expanded local calling between those adjacent exchanges that **are** in different LATA's. For those exchanges whose basic rates increase, the SCC **ordered the** companies to provide notice to customers via direct mail. Exchanges whose rates did not change did not receive a public notice. **On May 3, 2002**, the SCC issued an order approving ELCS for all interLATA routes in **this** application including **the** route between Raphine and Lovington.

(9) Community of Interest Statement

Raphine is a rural exchange in **west** central Virginia serving portions of Rockbridge, **Augusta** and Nelson **Counties**. Raphe serves approximately 2,400 customers. The Raphine exchange is in the Roanoke, Virginia **LATA**. The Piney River exchange, located in the Lynchburg, Virginia LATA and adjacent to the Raphine exchange, **serves** approximately 1,600 customers in Nelson and **Amherst** Counties. The community of interest is **from** customers in the **eastern** portion **of** the Raphine exchange located on the **eastern** slopes of the **Blue** Ridge Mountains in Nelson County with the Piney River exchange. The community of interest relates to employment, education, **shopping/commercial** and **family/community** needs. The Piney River exchange has numerous retail businesses that meet basic shopping needs for the **area** including the Nelson County portion of the Raphine exchange. These businesses also offer employment to the same **area**. The larger employers include stone **quarries**, trucking **firms**, orchards and fruit packing facilities and lumber companies. ELCS would also allow parents and students in the same school **districts** in Nelson County to communicate with one another on a local basis. ELCS will also allow local calling along the Nelson County border between Piney River and Raphine for family, **friends**, churches and community activities.

(10) Maps

Maps are attached for the Raphine and Piney River exchanges.

(9) Community of Interest Statement

Narrows is a rural exchange located in Giles County in southwest Virginia serving approximately 3,000 customers. Narrows is located in the Roanoke, Virginia LATA. Rocky Gap is a small rural exchange located in Bland County in southwest Virginia serving approximately 1,100 customers. Rocky Gap is located in the Virginia portion of the Bluefield, West Virginia Independent Marketing Area ("IMA"). Community of interest is employment, recreational and personal/community. Primary employers in the Rocky Gap exchange are American Mine Research, Inc. and East River Metals, Inc. In the Narrows exchange, the primary employer is American Electric Power. ELCS will allow local calling between employer and employee. Both exchanges have extensive land in the Jefferson National Forest. The park offers many recreational opportunities including fishing, hunting, hiking and camping. In addition, ELCS provides local calling between friends, family, community groups, churches and their congregations in these adjacent exchanges.

(9) Community of Interest Statement

Surry is a rural exchange located in **Surry** County in southeastern Virginia in **the** Norfolk, Virginia **LATA** and serves approximately 1,400 customers. The Charles City exchange is ~~located~~ north of **Surry** and is in the Richmond, Virginia **LATA**. It **serves** approximately 3,200 customers in a portion of Charles City County. Community of interest is primarily employment and recreation. The **Surry** exchange serves Chippokes Plantation **State** Park and the Chippokes Farm and Forestry Museum. The park hosts a major **annual** festival attracting over 75,000 visitors from **the region**. Employers in **Surry** such as S. Wallace Edwards & **Sons** (meat processing), Dominion Virginia Power, and Seward Trucking provide hundreds of jobs to the area including Charles City. The ~~free~~ ferry at **Surry** offers a convenient transportation connection to points north of the **James** River including Charles City. In the Charles City exchange, there are over twenty-three sites listed on the National Register of Historic Places. They include at least seven plantations that **are** not only tourist attractions but offer opportunities for area employment including **Surry**. Major employers in **the** Charles City exchange include **Warrior Express** and Henry S. **Branscom** Inc. that offer over 300 jobs to area residents including **Surry**. ELCS would enhance local communications between these two communities including employment as well as recreation/tourism.

(9) Community of Interest Statement

Sunny is a **rural** exchange located in Sunny County in southeastern Virginia in the Norfolk, Virginia **LATA** and **serves** approximately 1,400 customers. Waverly is primarily a **rural** exchange located in south-central Virginia serving portions of Sussex and Sunny Counties with approximately 2,400 **access** lines. Waverly is located in the Richmond, Virginia **LATA**. Community of interest relates to county government, employment, and personal/community. The **county** seat for Surry County is located in the Sunny exchange. ELCS will allow those residents of Sunny County located in the Waverly exchange to call their **county** government/courts/school board on a local basis. The Town of Waverly is one of the closest commercial centers to residents in the **Surry** exchange. Waverly also offers numerous retail outlets, a large grocery store, several restaurants and **retail** car outlets. There are several large employers in the Waverly exchange. They include Evans Lumber Company, Georgia Pacific Corporation, Waverly Hardwoods, Inc., Carroll Foods of Virginia, Inc. and two large state prison facilities, **Sussex** I and **Sussex** II. They offer employment to over 1100 people, including residents in the Sunny exchange. ELCS would allow local calling between employees and employers in these exchanges. There is a family medical practice in Waverly as well as the Waverly Health Care Center which provides intermediate and long term care for up to 120 patients. ELCS would also address community of interest among family and friends and common interest **areas such** as churches, community centers, etc. in the adjacent **areas** along the common boundary between **Surry** and Waverly.

(9) Community of Interest statement

Triangle is an exchange in northern Virginia that **serves** a portion of Prince William County. Triangle is in the Virginia portion of the Washington, D.C. LATA and **serves** approximately 12,300 customers. The Calverton exchange is adjacent to and west of the Triangle exchange and **serves** a portion of Fauquier County. The Calverton exchange is in the Culpeper, Virginia LATA and **saves** approximately 2,900 customers. Community of interest relates **to** shopping, **employment**, recreation, medical and **personal/community**. Interest is primarily **from** Calverton to Triangle. The Calverton exchange is a **rural** exchange with several small communities. These **communities** have facilities to meet their very basic needs. They look to nearby **areas** for their other needs. The Triangle exchange offers **employment** opportunities at **the** Quantico Marine **Base**, the **FBI** Academy, and at the shops and businesses in the towns of Dumfries and Triangle. The 153 bed Potomac Hospital in the Triangle exchange offers a full range of speciality medical care and **24** hour emergency medical services to the area including Calverton. Recreation such as hiking, camping and picnicking is available at the 17,000-acre Prince William Forest Park in the Triangle exchange. The Triangle exchange **offers** transportation access for the area **through** bus service, access to Interstate 95, as well as commuter Train service (Virginia Railway Express) and Amtrak. ELCS will enhance **the** various community **of** interests **stated above** as well as those personal needs associated with family, friends and community that exist between the two exchanges.

(10) Maps

Maps are attached for the Triangle and Calverton exchanges.

(9) Community of Interest Statement

Triangle is an exchange in northern Virginia that **serves** a portion of Prince William County. Triangle is **in the** Virginia portion of the Washington, D.C. LATA and **serves** approximately 12,300 customers. Hartwood is an exchange in **northern** Virginia that **serves** a portion of Stafford and Fauquier Counties. Hartwood is in the Culpeper, Virginia LATA and serves approximately 9,200 customers. Community of interest relates to shopping, employment, **recreation**, medical and **personal/community**. The Hartwood exchange offers hundreds of job opportunities to the area including the Triangle exchange. **They** include Colonial Circuits, GEICO Insurance, Intuit (**software** programs) and the many travel related businesses at the Falmouth/Interstate 95 interchange. The **western** portion of **the** Hartwood exchange is predominantly **residential/rural**. Residents look to adjacent areas including the Triangle exchange for various service needs. The Triangle exchange offers employment opportunities at **the** Quantico Marine **Base**, the FBI Academy, and at the shops and businesses in the towns of Dumfries and Triangle. The **153** bed Potomac Hospital in the Triangle exchange offers a full range of speciality medical care and **24** hour emergency medical services to the area including Hartwood. Recreation such **as** hiking, camping and picnicking is available at the 17,000-acre Prince William Forest **Park** in the Triangle exchange. The Triangle exchange **offers** transportation access for the area **through** bus service, access to Interstate 95, as well **as** **commuter** rail service (Virginia Railway Express) and **Amtrak**. **ELCS** will enhance the various community of interests stated above as well as those personal needs associated with family, **friends** and community that exist between the two exchanges.

Chronology

On May 28, 1999, Bell Atlantic Corporation and **GTE** Corporation filed a Joint Petition before the Virginia **State** Corporation Commission ("SCC") for Approval of Agreement and Plan of Merger. In that petition, both companies agreed, upon consummation of their merger, to expand local calling ~~areas~~ to include contiguous exchanges both within and ~~between~~ their respective territories in ~~the~~ Commonwealth of Virginia. **The** SCC, in its "Order Approving Petition" dated November 29, 1999, in Case No. PUC990100, found this commitment to be appropriate and ordered Bell Atlantic - Virginia, Inc. and GTE South Incorporated to file their plan for expansion of their local calling *areas*. **These** plans were filed with the SCC on July 21, 2000, in a Joint Application to expand local calling (Case No. PUC000204). Both companies have been implementing expanded local calling in phases since that joint application was filed. On November 2, 2001 Verizon Virginia (~~f/k/a~~ Bell Atlantic - Virginia, Inc.) and Verizon South (~~f/k/a~~ GTE South Incorporated) filed an Application to implement expanded local calling between those adjacent exchanges that **are** in different LATA's. For those exchanges whose basic rates increase, the SCC ordered ~~the~~ companies to provide notice to customers via direct mail. Exchanges whose rates did not change did not receive a public notice. On May 3, 2002, the SCC issued an order approving ELCS for all interLATA routes in this application including ~~the~~ route between Triangle and Hartwood.

(9) Community of Interest Statement

Weyers Cave is small exchange with approximately 2,150 access lines located in northwest Virginia along the Interstate 81 corridor between Staunton and Harrisonburg. **The** much larger Staunton exchange with approximately 30,700 lines is located in **Augusta** County adjacent to and south of **the** Weyers Cave exchange. **The** Weyers Cave exchange **serves** portions of Augusta and Rockingham Counties. ELCS will greatly enhance calling for Augusta County customers in the **Weyers** Cave exchange. For example, it is a toll call for these customers to reach their elementary, middle and **high** schools as well as county government offices. ELCS will allow local calls between **parents**, students and teachers **as** well as between the citizens and their county government. Basic services **are** available to Weyers Cave exchange customers in the Towns of Weyers Cave and **Burketown**. However other services such **as** specialty medical care **are** found in the Staunton exchange. Medical care includes the Augusta Regional Medical Center plus 110 physicians and 54 dentists who practice in the Staunton area. ELCS would provide local access to two colleges, **three** vocational schools and five private schools in **the** Staunton area. Businesses in the Staunton area provide employment to over 11,700 people in Staunton and in adjacent **areas** such **as** Weyers Cave. **The** revitalized downtown Staunton area, numerous shopping centers and large retail outlets provide shopping opportunities not available in **the** Weyers Cave exchange. The Staunton area has over 100 places of worship representing most denominations. Evidence of the high community of interest from Weyers Cave to Staunton is shown in **the** messages per main station data on page two. **The** Shenandoah Valley Regional Airport is located in the Weyers Cave exchange. **This** airport provides both passenger and freight air service to Staunton and other nearby exchanges and ELCS will enhance this service for Staunton exchange customers. ELCS will enhance communications in all **the** above mentioned areas of interest that exist between these two areas.

Chronology

On May 28, 1999, Bell Atlantic Corporation and GTE Corporation filed a Joint Petition before the Virginia State Corporation Commission ("SCC") for Approval of Agreement and Plan of Merger. In that petition, both companies agreed, upon consummation of their merger, to expand local calling areas to include contiguous exchanges both within and between their respective territories in the Commonwealth of Virginia. The SCC, in its "Order Approving Petition" dated November 29, 1999, in Case No. PUC990100, found this commitment to be appropriate and ordered Bell Atlantic - Virginia, Inc. and GTE South Incorporated to file their plan for expansion of their local calling areas. These plans were filed with the SCC on July 21, 2000, in a Joint Application to expand local calling (Case No. PUC000204). Both companies have been implementing expanded local calling in phases since that joint application was filed. On November 2, 2001 Verizon Virginia (W a Bell Atlantic - Virginia, Inc.) and Verizon South (W a GTE South Incorporated) filed an Application to implement expanded local calling between those adjacent exchanges that are in different LATA's. For those exchanges whose basic rates increase, the SCC ordered the companies to provide notice to customers via direct mail. Exchanges whose rates did not change did not receive a public notice. On May 3, 2002, the SCC issued an order approving ELCS for all interLATA routes in *this* application including the route between Weyers Cave and Staunton.

ORDER AUTHORIZING IMPLEMENTATION OF
FIFTH PHASE EXPANDED LOCAL CALLING

On November 2, 2001, Verizon Virginia Inc. ("Verizon Virginia") and Verizon South Inc. ("Verizon South") (hereinafter collectively referred to as "Joint Applicants") filed with the State Corporation Commission ("Commission") their fifth Joint Application to Expand Local Calling in Part (hereinafter "fifth Joint Application").¹ This fifth Joint Application proposed to implement phase five of their expanded local calling plan ("ELCP"), which involved routes between exchanges that are primarily interLATA.² The Joint Applicants identified these

¹ Phased implementation of expanded local calling is in satisfaction of a condition of this Commission's approval of the Joint Applicants' merger, ordered November 29, 1999, in Case No. PUC-1999-00100.

² These routes are between contiguous exchanges located in different regional calling areas or LATAs. Before any interLATA routes are implemented, the Joint Applicants must obtain waivers from the Federal Communications Commission ("FCC") and file copies of these waivers in this case.

Effective April 9, 2002, the new Case Management System requires that the case number format for all Commission orders change from, e.g., PUE010663 to the following: PUE-2001-00663.

routes in Attachment A to the fifth Joint Application. The Joint Applicants proposed that all routes for expanded calling between the affected exchanges in phase five of its ELCP be reciprocal.

In the Commission's Fifth Order Prescribing Notice, issued December 3, 2001, ("December 3, 2001, Order") the Commission noted that customers in the Verizon Virginia and Verizon South exchanges shown in Attachment C to the fifth Joint Application would be billed in a higher rate group upon implementation of the ELCP. Therefore, in its December 3, 2001, Order, the Commission found that customers in the Attachment C exchanges should first receive notice and an opportunity to comment or request a hearing on whether to implement the expanded calling. Those exchanges are as follows: Bowling Green, Boykins, Capron, Charlotte Court House, Colonial Beach, Courtland, Drakes Branch, Emporia, Ladysmith, Kilmarnock, Port Royal, Calverton, Clover, Mineral, and The Plains. In the same Order, the Commission also deferred approval of all the routes that do not involve rate increases identified in Attachment B of the fifth Joint Application.³ The purpose of this deferral was to provide additional time for the Joint Applicants to file community of

³ Attachment B identifies the following exchanges among others: Allwood, Arcola, Barnesville, Big Prater, Bridgewater, Capron, Claremont, Franklin, Gloucester, Haymarket, Kilmarnock (flat rate service), King & Queen, King George, Maxie, Nokesville, Pamplin, Raphine, Reedville, Rock Gap, Stafford, Stony Creek, Surry, Tappahannock, Triangle, and Weyers Cave.

■
v
interest information on all the proposed interLATA routes in order to support any subsequent filings for waivers to the FCC. To date, the Joint Applicants have not filed or completed such community of interest information. As this additional information is not necessary for the Commission's approval, we will address the routes for the exchanges identified in Attachment B of the fifth Joint Application in this order.

On January 11, 2002, the Joint Applicants, by counsel, filed Proof of Notice to their customers in the required exchanges identified above. In response to the notice given, approximately 70 comments were filed in this case. Of the 15 exchanges noticed, nine had a total of three or fewer comments **filed**.⁴ Of the remaining six exchanges, there were six against the ELCP and two undetermined in Chancellor; four for the ELCP in Charlotte Court House, which included a supporting petition with close to 800 signatures; 11 against the plan in Colonial Beach; four against the ELCP in **Kilmarnock**;⁵ one for and three against the ELCP in Calverton; one for and four against

⁴ This includes two for and one against the ELCP in Bowling Green; one against in aoykins; one against the ELCP in Drakes Branch; three against in Courtland; one against in Emporia; one for and one against the ELCP in Ladysmith; one for in Port Royal; and one for and one against the ELCP in The Plains exchange.

⁵ The only increase in this portion of the ELCP is for Verizon South's Optional Local Calling Plan. There would be no increase for basic local service in this exchange.

the Plan in Clover; and 17 against the ELCP in Mineral.⁶ One interested person in the Clover exchange requested permission to attend a hearing if a hearing was convened; otherwise, there were no requests for a hearing.

NOW THE COMMISSION, upon consideration of the fifth Joint Application and with due regard to all comments filed, finds that the Joint Applicants are authorized to implement all routes identified in the fifth phase of the ELCP. However, the Commission recognizes that some customers will experience increases in their basic local exchange services rates in the rate regrouping process to expand their local calling scopes. Therefore, we further find that Verizon Virginia and Verizon South should notify its customers in these exchanges at the time of the ELCP implementation' of applicable local exchange service options, including measured service and exchange only service. These service options may help mitigate the impact of the higher

⁶ We note that several letters from the Mineral exchange identified a desire for extended calling to Richmond. The Mineral exchange is not contiguous with the Richmond exchange; therefore, Mineral cannot obtain two-way local calling to Richmond without also getting calling to some intermediary exchange(s) that are contiguous. The instant expanded calling proposal to include the Goochland exchange would at least make the new Mineral calling scope contiguous with the Richmond calling area. Such an arrangement would allow customers in Mineral to pursue an extension to its local calling area to include Richmond pursuant to § 56-484.2 of the Code of Virginia. The monthly residential increase in the Mineral exchange would be \$1.02 for basic flat rate service for extended service.

⁷ However, implementation of this phase of the ELCP may only take place if the FCC grants the requested interLATA waivers.

rates resulting from the subject regroupings.⁸ Further, the Commission finds that the Joint Applicants shall file appropriate applications with the FCC seeking the necessary waivers, including sufficient community of interest information to support the waivers, to implement the proposed interLATA routes that have been approved in this fifth phase of the ELCP and should file with the Clerk of the Commission copies of such filings and any subsequent FCC orders regarding the requested waivers in this docket.

Accordingly, IT IS ORDERED THAT:

(1) Joint Applicants shall seek the necessary waivers from the FCC regarding the proposed interLATA routes in the fifth Joint Application in order to implement the fifth phase of the ELCP.

(2) Joint Applicants shall file its application for waiver with the FCC no later than August 30, 2002, and shall file with the Clerk of the Commission copies of such filings and any subsequent FCC orders regarding the requested waivers in this case.

(3) Joint Applicants are authorized to implement the fifth phase of the ELCP, conditioned upon the FCC's grant of the

⁸ The Commission recognizes that these options were also described in the information previously sent out with the Joint Applicants' notice for comment.

necessary waivers and in accordance with the findings made herein.

(4) Joint Applicants shall give notice of applicable local exchange service options, including measured service and exchange only service, to their customers in the exchanges identified in Attachment C to the Joint Application at the time of the implementation of the fifth phase of the ELCP.

(5) This case is continued generally.

AN ATTESTED COPY hereof shall be sent by the Clerk of the Commission to all persons on the official Service List in this matter. The Service List is available from the Clerk of the State Corporation Commission, c/o Document Control Center, 1300 East Main Street, First Floor, Tyler Building, Richmond, Virginia 23219.
